

[Facebook Online Bible Study Group](#)

Following suggestions made at the 'We share a Future' weekend, we are now offering the chance to study scripture together online through a group on the Facebook website. This site will allow people to study and share their thoughts and views on different scriptures together. It will also allow those people who are not living in proximity to a congregation to be included in sharing. A scripture will be suggested every fortnight (or when needed) with some questions/ discussion points for people to consider and discuss.

We are aware that allowing an online discussion could make us vulnerable to inappropriate comments; however precautions have been taken to prevent this. The group has been set so that people will have to apply to be a member of the group, therefore making it possible to monitor the members, and ensure that no other people will be able to comment on any discussions. The group administrators will also monitor the site to check that all comments are appropriate.

Facebook is a website that is open for *anyone* to join, so please feel free to sign up if you are interested.

3 simple steps to join the Facebook scripture study group

1. Type into the search bar: **'Community of Christ (UK) Online Bible Study'**
2. You will need to click on 'request to join group'
3. When one of the group administrators are next on the page they will allow you to be a member and then you will be able to partake in the discussion.

Setting up email notifications

It is also possible to set up notifications so that you can receive emails when people reply to your discussion points in the group. To set this up complete the following steps:

1. Click on 'Account' (right hand side of blue bar at top)
2. Click on 'Account settings'
3. Click on 'Notifications' tab
4. Scroll down to 'groups' and click on the boxes which you would like to select
